INTRODUCTION

I'm Muhammad Bashir, popularly known as Muallim — a passionate Qur'anic reciter and Full-Stack Web Developer. I specialize in building responsive websites using HTML, CSS, Bootstrap, JavaScript, and PHP. I'm currently advancing in the field of Artificial Intelligence and Machine Learning. My journey began as a self-taught developer, and I've had the privilege of working with diverse clients across various industries. With a strong technical foundation and a creative approach, I aim to solve real-world problems through technology.
